## **Measuring Safety Performance**

Jump Business Solutions will work with you to measure safety performance against business expectations and/or legislative requirements.

We can also assist you to develop balanced scorecards, including:

- Proactive measures that determine safety performance prior to loss or potential events
- Reactive measures that determine performance based on loss events

Jump Business Solutions is skilled at providing the following consultancy:

### **Safety Climate Surveys**

Measuring the key drivers of your company's safety culture.

Evaluating the safety perception and safety culture of employees with reference to occupational health and safety issues.

Assessing the level of employee involvement in existing safety programmes and the quality of the management/employee effort that supports them.

Assessing employee perception of the existing safety management system.

### **Health and Safety Audits**

Evaluating compliance with health and safety legislation and regulations.

Evaluating health and safety management systems for compliance with legislation and ACC Workplace Safety Management Practices Programme (WSMP) or Partnership Programmes.

Assessing worksite compliance with organisational policies and procedures and health and safety legislation.

### **Safety Behaviour Assessments**

Assessing the safety attitudes and behaviours of individuals in the workplace.
