Staff Attitude Surveys

It is important for organisations to understand 'the way we do things around here' on a day-to-day basis, in other words the practices, procedures and policies that are followed by the organisation and how this influences people's behaviours and attitudes in the workplace.

Jump Business Solutions can provide anonymous canvassing of employee ratings and comments relating to employee attitudes to their job, their employer, and the organisation as a whole.

The survey includes collation, interpretation and reporting of results.

We will provide a detailed report that identifies aspects of the internal operations of your business that may need attention to become more functional, as well as recommendations to enhance your business.
